

TRANSPLANT HEPATOLOGY FELLOWSHIP

at
DR. RELA INSTITUTE & MEDICAL CENTRE

Dr. Rela Institute & Medical Centre (RIMC) is a 450 bedded multi-specialty quaternary care medical facility. Our Liver Transplant programme under the leadership of Prof. Mohamed Rela has performed over 3500 liver transplants. Our centre has the unique provision of both cadaveric and living donor liver transplantation.

Transplant Hepatology Fellow will gain expertise and experience in

- Education, knowledge, professional skills and technical proficiency in the management of patients with decompensated cirrhosis, ACLF, pre-operative evaluation and following liver transplantation
- Medical aspects of Liver transplantation (Living / Deceased donor liver transplantation)
- Identification and clinical decision making of critically ill patients in the Liver intensive care unit
- Understanding and management of immunosuppressive therapy
- Therapeutic upper GI endoscopy and observation in post-transplant ERCP
- Clinical approach and management of Hepatocellular carcinoma
- Basic understanding of transplant histopathology
- Concept of teamwork alongside and working closely with transplant surgeons and liver intensivists to optimise patient care
- Develop aptitude and interpersonal skills that will allow trainees to communicate well with their peers and patients
- Active participation in academic activities- research projects, peer review and academic meetings
